

## Untitled

### Date

1992

### Primary Maker

Ken Carlson

### Materials

Oxidized copper

### Description

The copper vessel is cylindrical and covered with small twisted strips of copper which protrude from the bowl in vertical rows. The rim of the vessel is instead flat, consisting of a wide woven band. The entire piece is patinated and is bright mint green, as is typical of a verdigris patinated finish. The vessel is very springy and flexible, due to its very thin copper lengths and its woven

structure.

### Dimensions

10 1/2 x 12 3/4 x 12 3/4 in. (26.7 x 32.4 x 32.4 cm)
